

KAMBOJU UDAY KIRAN

kambojuudaykiran55@gmail.com
PH: 9573415684 | Hyderabad, Telangana

OBJECTIVE:

Aspiring Data Analyst with 1.5 years of professional experience and hands-on expertise in Python, SQL, Excel, and Power BI. Passionate about transforming data into actionable insights and solving business problems through analytics. Seeking an opportunity to leverage my analytical skills, continuous learning mindset, and professional experience to contribute to data-driven decision making.

EXPERIENCE: i3 Lifestyles (1year 6 months)

I have worked in i3 Sangam Lifestyle solutions Private Limited as a Designs Engineer for 1year 6 months. As a part of my role, I have gained experience in AutoCAD, Excel, Power point and Word. I use to prepare the ADE layouts, Split wise Layouts, Elevations, Schematics and Other Documentation Work such as Product Approval, Technical Submittal and Quote Variation.

EDUCATION: B. Tech from St. Martin's Engineering College (2022-2025)

I have Completed my B. Tech from St. Martin's Engineering College in Electrical and Electronics Engineering branch with 8.2 CGPA. Also, I have managed the class for last two years of my college. I have gained knowledge in core as well as IT related Subjects which as included in our syllabus.

Diploma from GPTMDCL (2019-2022)

I have Completed my Diploma from GPTMDCL in Electrical and Electronics Engineering branch with a 9.68 CGPA. I have gained knowledge in core as well as Practical by doing internship as a part of my Diploma.

SKILLS:

- Python (Pandas, NumPy, Matplotlib)
 - SQL
 - Excel
 - Power BI
 - EDA
 - Prompt Engineering
-

PROJECTS:

Customer Delinquency Risk Analysis & AI Collections Strategy | GenAI

- Conducted Exploratory Data Analysis (EDA) using GenAI tools to assess data quality, identify risk indicators, and structure insights for predictive modelling.
- Proposed and justified a no-code predictive modelling framework to assess customer delinquency risk, leveraging GenAI for model logic design and evaluation criteria.

E-Commerce Sales Analysis | Python (Pandas, Matplotlib)

- Analysed 9,994 e-commerce transaction records using Python to evaluate sales performance, profitability, customer behaviour, and regional trends.
- Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Pandas to ensure data quality and uncover business insights.
- Conducted customer, product, and regional performance analysis to identify key revenue drivers and sales patterns.
- Generated actionable insights to support decision-making related to profitability improvement, customer retention, and sales growth.

Chips Sales Analysis | Python (Pandas, Matplotlib)

- Analysed 250K records using Python to evaluate sales performance, profitability, customer behaviour, and regional trends.
 - Performed data cleaning, preprocessing, and exploratory data analysis (EDA) using Pandas to ensure data quality and uncover business insights.
 - Generated actionable insights from pre-trial and actual sales.
-

CERTIFICATIONS:

- Data Analysts Tool box from Udemy on 21st May 26
- Prompt Engineering with ChatGPT Master class from Udemy on 05 June 26
